Friday. September 5th, 1873.

THE trial of Mr. Leonard Brown, in New York, is not yet completed. There are no new developments of interest, however, and we don't care to publish the report of the trial. He has many friends there who are disposed to aid him, but Justice Dowling seems to be very much prejudiced against him. Our morning's mail informs us that Mr. Brown is held without bail to await . trial at Court.

Preparations are being made in Philadelphia for a large gathering of colored citizens, numbering many thousands, by delegations and committees from every section of the country, celebrating by jubilee and harvest home at Star's Grove, N. J., September 11, their freedom and advancement in church and state, and to join in the coming centennial celebration of American Independence. The committee on speakers have chosen Prefessor J. P. Sampson, of Washington, formerly of this city, as orator of the day. Bishops Clinton, Moore, Professor Day, and other promi-Douglass, Garrett, Langston, Weir, Underdo, and other leading colored and white men are invited.

The Back Salary Law.

Much has been said and written over this matter, and harsh terms have been applied, often unjustly, to our representatives. Conventions of both political parties have denounced it, and called for its repeal, and it will undoubtedly be debated again at the next meeting of Congress. This law has been denominated a "steal" and a "swindle" by many of the Southern democratic papers, thereby hitting their own particular friends, much harder than any one else. Their pious horror over the atro- office and under the direction of the city of this crime (?) is remarkably en- Hon. Thomas Ruffin, Chief Justice of tertaining. This is especially so, when it is known that every member from this State received this back pay, and all who failed to vote for it "dodged," but took the money. If the democratic papers in this State desire to call their own chosen representatives "thieves," we shall not protest against it. That is their affair. One thing is certain, they are unable to fasten the responsibility of this act upon the Republican party, for without the affirmative votes of the turned, practice for a number of years, Democrats, the bill would have been defeated. Both parties are therefore equally implicated, though had not a Democrat voted either way, the bill revise and amend the Constitution of would have been lost, as a majority of North Carolina. As a member of these Republicans voted against it.

We print a report of the vote on the back salary law, taken from the Republic's report of Gov. Noye's (of Ohio) speech delivered at Athens, O., August

In the Senate it was as follows: Republican Senators for the bill epublican Senators against the bil' emocratic Senators for the bill ..... Northern Senators for the bill...... Southern Senators against the bill. Northern Senators against the bill.

In the House of Representatives as

The united vote of both Houses was Republican members and Senators for the bill Republican members & Senators against the bill..... Democratic members and Senators for the bill Democratic members & Senators against the bill Outgoing Senators and members for the Southern Senators and members for the

It will be noticed that a large proportion of the affirmative vote came from the South, and that the per centage of Democrats was very much larger than that of Republicans. So we see that this action cannot be charged to the Republican party. We expect to see Congress make a square back down on it the coming winter, as public opinion | the death of General Taylor, was re-ap-

is so strong against it. For our part, we think the increased compensation for the present Congress repeal of the franking privilege. This latter is a harder blow to the constituents than it is to the members themselves, as they will not forward documents now at all unless some one prepays the postage, so that it will be diffi-cult to procure them as heretofore.

he Hillsboro Recorder man is au fait on the mushroom question.

Hon: Daniel Moreau Barringer, of North Caolina, U. S. Minister to Spain.

From Livingston's Monthly law Magazine January 1853,7

The subject of this notice is now about forty-five years of age. He is a native of the county of Cabarrus, (originally a part of the ancient and renowned county of Mecklenburg.) in the State of North Carolina. His ancestors, both paternal and maternal, were active partisans in favor of the Revolutionary war, and suffered many privations and one of them a long imprisonment, because of their ardent attachment to that holy struggle, which ended in the separation of the colonies from the mother country, and the establishment of our independence. They were among the early settlers of that patriot portion of the then colonies, Western North Carolina.

His father, the late General Paul Barringer, was well known and distinguished in his State. Though chiefly devoted to agricultural and commercial pursuits, and the happy quiet of retired and domestic life, General Barringer was very often selected by the popular voice, the only public honor or office he ever accepted, to take part in the legislative councils of his native State.

Having attained the rudiments of a thorough English education, this son was placed at an academy of Greek and the lighter branches of mathematics, in his native county, under the tuition of the Rev. John Robinson, D.D., a Presbyterian clergyman of great distinction in the South, in whose noble character was happily blended the gentlest and purest piety with the most commanding eloquence, and a dignity and grace of personal demeanor, which won the hearts or all who knew him, and had nent colored men will speak. Frederick the best and most lasting influence on the manners and principles of the many young men whose education and morals were entrusted to his care. Mr. Barringer had the happiness to enjoy in the highest degree the friendship of this eminent divine to the day of his

> Having completed his academical ourse, he was entered a student at the University of North Carolina, then under the presidency of the late Joseph Caldwell, D.D., whose warmest regards he also enjoyed in an eminent degree. In the year 1826, he was graduated at this institution with high honors; and after remaining some six months as a resident graduate of the university in the further study of history and the modern languages, he recommenced the study of the law in the town of Hillsboro', North Carolina, in the the Supreme Court of that State. In the year 1829, he established himself, and entered upon the pratice of his profession in his native county. He at once, for so young a lawyer, received a large share of public patronage and favor, and reaped the rewards of a lu-

In this year, too, he was elected by a most flattering expression of public opinion to the legislature of the State. To this honorable post he was successively, and by equal and even increased manifestations of popular regard, renever having suffered a defeat, and without the slightest abatement in the public confidence. In 1835, he was elected a member of the convention to popular assemblies, he took an active part in public affairs, and always cheerfully performed the duties of his station. When occasion required, he always took a due share in the public debates, though avoiding the bad taste and fatal mistake, so common among the public men of our country, of too much speaking, and of sacrificing the useful and solid to the light and ornamental. He was earnestly devoted to the improvement of the internal and intellectual condition of his State, and the development of her rich resources. As a member of the legislature he was at different times chairman of the important committees on the judiciary and internal improvements. Ardently attached to the profession of the law, and the good results produced, and the high principles inculcated by its just administration, he did not permit his public duties to interfere with his practice during the period of his service in the the councils of the State.

In 1843, he was elected to Congress from the 2d congressional district of North Carolina, and was re-elected from the same district is 1845, after a most excited contest with the late Hon. Charles Fisher, one of the most successful, active, and distinguished politicians of that State.

In 1847, he was again elected to the House of Representatives by a most flattering testimonial of public confidence. It is worthy of record, that in one of the counties (Stanley) of the district, he received every vote that was given. In 1849, he declined a re-election to Congress. In that year he was appointed by the late lamented President Taylor envoy extraordinary and minister plenipotentiary of the United States to the court of her Catholic majesty the Queen of Spain, and upon pointed to that distinguished post by President Fillmore. He is now abroad in the discharge of the duties of this mission, which has become so importis just and right. We do not like the ant to the government and people of draw back portion of the act, nor the the United States, and which, during the critical period of the relation existing between these countries for the last two or three years, has been one of pe-culiar delicacy, difficulty and responsibility. The Raleigh Sentinel says: At meeting of the Rescue Steam Fire Company on Tuesday night last, a resolution was passed offering fifty dollars, or a silver horn of the value of fifty dollars, as an additional premium to be awarded at the approaching State Fair to the successful steam engine compay. A silver medal will be competed for and the company to whom it is awarded will also receive the \$50.

The Raleigh Era says: Workmen have been engaged for several days in making repairs on the capitol and in trimming the park surrounding. A defective flue in the Auditor's room has been torn out and rebuilt, yesterday, and for several days past workmen have boen engaged in cutting grass, pruning shrubs and trees, and otherwise improving the general appearance of the

The Times will be devoted, as in the past, to an intelligent and firm support of the Republican Party. Its course in reference to the Tammany Ring, at a time when all the other daily papers in New York obstructed and discouraged its efforts, attests its sincerity in the cause of Reform. The Times stood alone in demanding Reform from 1869 to the close of 1871, and there is no sincere and honest proposal for Re-form, in any branch of the Government, which will not be heartly supported by the Times. But it will not conspire in assisting ambitious politicians or demagogues to reach power under false pretenses. It will not encourage defection from the Republican Party, which is still the party of progress, security and national prosperity.

It will sustain, with all the force and influence at its command, the principles and policy which have rendered that party so justly famous in our history. It will advo-cate those measures by which the honor, the peace, and the prosperity of the nation can be best secured and promoted, and will constantly study the wants of the people rather than the wishes of the politicians.

One Gallon Covers Twenty Square Yards, Two Coats

"SPECIMEN AND PRICE LIST FURNISED GRATIS," We especially call the attention to the following testimonials of the Paint:
C. P. Knight, Esq.—Dear Sir: I have used Bradley's Patent Enamel Paint on my
dwelling last Spring, and am much pleased with it, and it looks as well now as when

rst painted, and consider it a good Paint. Yours, truly, Creswell P. O., Hartford county, Md., Feb. 6th, 1873. THE PLAINS, FAUQUIER Co., VA., Feb. 6th, 1873.

Mr. C. P. Knight—Sir: The Paint came safely to hand as ordered—two kegs, five gal lons each, and three buckets, one gallon each. As practice was slack, I did the job my and three others, and three others, one gament. As placeted was state, I did the joint self. Two weeks, (not constant work,) completed the house two coats. The last coat I applied thick, and it is now generally conceded that for enamel-like hardness, and body, and harmony of colors, there is not a handsomer job in the piace. I saved sixty-five dollars by the operation, which is an item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as testimonials, but I feel so forcibly the great adaptability of your "I namel

Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of its being "ready mixed" that I give you free permission, (it it is desirable to you,) to make what use you think proper of this letter. Very respectfully and truly, S. McGILL, M. D. To THE PUBLIC-It affords me much pleasure to state that in July, 1871, Front Street Theatre was painted inside and out with "Bradley's Patent Enamel Paint," for which C. P. Knight, No. 93 West Lombard Street, is agent, and, to testify to its seperiority over any and all other paints for similar uses. In no private dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where, during

our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on. Of the numerous advantages it possesses over other paints, I will only mention its being mixed and ready for use in quantities to suit purchasers its quickly drying properties, which saves much time in the execution of work were paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. As such I most earnestly recommend it to the merchants and tradesmen of our city, believing it will give them greater satisfaction than they can possibly anticipate.

first painted, and consider it a good Paint.

CHAMBERSBURG, December 10th, 1872. Mr. C. P. Knight—Dear Sir:—The paints we received from you have been applied to several of our own buildings and to those of our friends, and have given entire satisfaction in covering qualities, in gloss, and in adaptability to all kinds of surface of material and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties, or painters to mix and furnish materials, wherein we have Yours, truly, JACOB STOUFFER & SON. found the most deception.

FROM HON. JOHN WETHERED. Mr. C. P. Knight:—At the recommendation of a friend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than ordinary paint, and is freer from disagreeable odor.

Yours, Respectfully,

JOHN WETHERED.

C. P. Knight, Esq., Agent for Bradley's Patent Enamel Paint—Dear Sir:—The paint we purchased from you we will cheefully endorse as the best of any kind we have ever used; its covering qualities is everything desired, drying promptly and with a hard gloss which must, we think, resist the action of all kinds of weather. This is our experience, and we can recommend it with certainty, and intend to use it on all occasions where we desire a goed job of work.

PLEASANTVILLE, HARTFORD Co., MD. Very Respectfully, Mr. C. P. Knight—Dear Sir:—I am very happy to inform you that your "Patent Enamel Paint" has given entire satisfaction. I prefer it to any paint I have ever seen used, and recommend it for durability and beauty as paramount to any other.

Very Respetfully, R. DICKEY, M. D. C. P. KNIGHT, Sole Agent, No. 93 W. Lombard Street, Baltimore.

NOTICES OF THE PRESS. The ever-increasing circulation of this excellent monthly, proves its continued adaptation to popular desires and needs.— Indeed, when we think into how many homes it penetrates every month, we must

consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudices or deprayed tastes.—
